**ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).**

Each dealer and exhibitor shall employ an attending veterinarian under formal arrangements. In the case of a part-time attending veterinarian or consultant arrangements, the formal arrangements shall include a written program of veterinary care and regularly scheduled visits to the premises of the dealer or exhibitor.

The facility has stated they have acquired a new attending veterinarian. The new attending veterinarian has not provided a written program of veterinary care for the facility to follow.

A written program of veterinary care is needed to ensure that the veterinarian has oversight of the healthcare of the animals to ensure their health and wellbeing.

Consult with the attending veterinarian and assemble a written program of veterinary care that the facility shall follow.

Correct immediately. This affects 1326 dogs indirectly.

The use of appropriate methods to prevent, control, diagnose, and treat diseases and injuries, and the availability of emergency, weekend, and holiday care.

There were several bottle of expired medications stored with unexpired medication. This included a bottle of Levasole expired 3/01, a bottle of Dextrose expired 4/05, a bottle of injectable Saine expired 1/05, a bottle of metronidazole expired 10/05, a bottle of Amikacin expired 4/05 and 2 bottles of Tylan 200 expired 4/05.

The use of expired medication is not considered adequate veterinary care as expired medication may not administered the required dosages needed for treatment which could affect the health and wellbeing of the animals being treated. Having expired medications stored with unexpired and usable medications causes the potential risk that the expired medications will be used.

The expired medications were removed at the time of the inspection.

This affected 1326 dogs indirectly.

Daily observation of all animals to assess their health and well-being; Provided, however, That daily observation of animals may be accomplished by someone other than the attending veterinarian; and Provided, further, That a mechanism of direct and frequent communication is required so that timely and accurate information on problems of animal health, behavior, and well-being is

**INSPECTION REPORT**

conveyed to the attending veterinarian.

Upon inspection it was noted a female harlequin Great Dane #105 792 798 was lame and a female brindle Boxer #091 378 539 had bloody diarrhea.

Daily observations of animals is needed to assess the health and wellbeing of animals. In the event that an animal is showing signs of illness the animal's health problems can be assess and treatment initiated after conveying the information to the attending veterinarian.

Ensure that the signs of illness of the Great Dane and Boxer are conveyed to the attending veterinarian so that treatment may be initiated. Ensure that daily observations of all animals at the facility are being conducted at that in the case of animals showing signs of illness that the health information of the animals is conveyed to the attending veterinarian.

Correct immediately. This affects 2 dogs indirectly.

**RECORDS: DEALERS AND EXHIBITORS.**

Each dealer, other than operators of auction sales and brokers to whom animals are consigned, and each exhibitor shall make, keep, and maintain records or forms which fully and correctly disclose the following information concerning each dog or cat purchased or otherwise acquired, owned, held, or otherwise in his or her possession or under his or her control, or which is transported, euthanized, sold, or otherwise disposed of by that dealer or exhibitor. The records shall include any offspring born of any animal while in his or her possession or under his or her control.

- (i) The name and address of the person from whom a dog or cat was purchased or otherwise acquired whether or not the person is required to be licensed or registered under the Act;
- (ii) The USDA license or registration number of the person if he or she is licensed or registered under the Act;
- (iii) The vehicle license number and State, and the driver's license number (or photographic identification card for nondrivers issued by a State) and State of the person, if he or she is not licensed or registered under the Act;
- (iv) The name and address of the person to whom a dog or cat was sold or given and that person's license or registration number if he or she is licensed or registered under the Act;
- (v) The date a dog or cat was acquired or disposed of, including by euthanasia;
- (vi) The official USDA tag number or tattoo assigned to a dog or cat under Secs. 2.50 and 2.54:  
(Also refer to Policy 13, Microchip Implants)
- (vii) A description of each dog or cat which shall include:
  - (A) The species and breed or type;
  - (B) The sex;
  - (C) The date of birth or approximate age; and
  - (D) The color and any distinctive markings;
- (viii) The method of transportation including the name of the initial carrier or intermediate handler or, if a privately owned vehicle is used to transport a dog or cat, the name of the owner of the privately owned vehicle;
- (ix) The date and method of disposition of a dog or cat, e.g., sale, death, euthanasia, or donation.

This facility has permission to use micro chipping as a form of identification and a variance to use a computer program to replace Form 7005, Record of Dogs and Cats on Hand. However, the facility is still using Form 7005 to record Adult dogs on Hand. Several dogs were scan and their microchip numbers read during the inspection, including dogs numbers #058 592 125 fawn female Mastiff, #105 547 096 a Boston Terrier, #094 357 075 a male white Maltese, #091 378 539 a female brindle Boxer, #065 028 769 a female chocolate Cocker Spaniel, #082 893 257 a female white American Bulldog and #058 806 518 a female Golden Retriever, and a female harlequin Great Dane #105 792 798. These animals could not be identified by their microchip number on the animal inventory. There was also a leased female Orpei dog not listed on the inventory.
